MATH1141 Higher Mathematics 1A is a 6UOC course offered in Semester 1. The excluded courses for MATH1141 are: MATH1011, MATH1031, MATH1131, MATH1151, ECON1202 and ECON2291 (So students should not be enrolled in MATH1141 and any of these listed courses.)

Web Address

The school's web address is: http://www.maths.unsw.edu.au

UNSW Moodle

Essential information concerning this course is accessible via
http://moodle.telt.unsw.edu.au

Official student email address

Official information from the university, including this school, is sent to each student's university email address:

zSTUDENTNO@student.unsw.edu.au

Check this email account regularly! Please ONLY use your university email when contacting academic staff.

Assumed Knowledge

The "assumed knowledge" for this course is HSC Mathematics Extension 2, with a combined mark greater than or equal to 176/200.
Very good Extension 1 students, say with marks of 145+/150, should be fine.
If you do not satisfy these conditions, you are encouraged to change to MATH1131.
If you are in doubt see the Director of First Year, RC-3073.

Introduction to Computing lectures in week 1

There is be a video available on Moodle that will give instructions on how to get started on the computing component of the course.

Tutorials
Tutorials start in week 2 and run to week 13. There will be alternating tutorials in algebra and calculus, with an on-line component.

Please read the MOODLE announcement for details --- regularly check your timetable on myUNSW!

Course Packs

All students are strongly advised to buy the Math1131/1141 Course Pack from the University Bookshop.

Textbooks
Students might wish to delay buying the Calculus textbook for a week or so.
