Exam Information

First some general info.

- There will be a staff consultation roster covering stu-vac and the period up to the exam. This roster will appear as a link off the “Help for Students” web on the school site. It will also be placed in Blackboard.
- The best guide to possible exam questions are the set problems and past exam papers.
- Your “provisional” overall MATH1251 mark will be available via the “Maths Info (Maths marks)” link in Blackboard from late on 19th November 2010. This is well before official results are released.
- Don’t ask me when or where the exam is — look on myUNSW.
- Your calculator MUST have a “UNSW approved” sticker on it.
- Don’t forget the CATEI surveys!
