For Question 20: 5 = Outstanding  3 = Satisfactory  1 = Very Poor

Please answer the other questions on the reverse page. (PTO...)
a) What are this staff member’s strengths in teaching?

knows the work, from what I saw.

I didn’t go to tutes so I suppose I can’t say much else.

b) What improvements would you suggest?

c) Do you have any comments or recommendations concerning the use of this questionnaire and its timing?

Your lecturer/tutor takes this evaluation very seriously and thanks you for the time you took to complete it. Teaching and learning are highly related and good communication between staff and students can contribute to improvements in teaching.

20: All things considered, how would you rate this staff member's overall effectiveness as a university tutor.

For Question 20: 5=Outstanding 3=Satisfactory 1=Very Poor

Please answer the other questions on the reverse page. (PTO...
Open-ended comments  (Teaching/Tutoring Evaluation)

PLEASE PRINT to preserve anonymity.
The questionnaire will be returned to your lecturer/tutor after the exam period for perusal.

a) What are this staff member's strengths in teaching?
   knows a lot about the course

b) What improvements would you suggest?

c) Do you have any comments or recommendations concerning the use of this questionnaire and its timing?

Your lecturer/tutor takes this evaluation very seriously and thanks you for the time you took to complete it. Teaching and learning are highly related and good communication between staff and students can contribute to improvements in teaching.
Botev, Mr Zdravko

Important information about your evaluation

Dear Colleague,

Here are the results of the recent student evaluation you requested. When looking at the responses please remember that means do not necessarily make sense for small classes. You should also look at the distribution represented in the graph when interpreting your means.

I suggest that it would be a good idea to keep the originals of all results reports in a safe place for future use. The original questionnaires will be returned to you towards the end of the examination period. After you have read the comments you might like to discuss the evaluation with a TEDI consultant.

TEVAL reports now include Ratings Interpretation Guides (RIGs) data for each item (where the data are available. These are presented on your reports in the section marked "Mid 50%", opposite the text of each item used in your evaluation survey.

The numbers beneath the "Mid 50%" heading represent the bounds for the middle 50% of colleagues' means on the item in question, where the teaching circumstances were similar to those in the class you evaluated. That is, they represent the 25th and 75th percentiles for the distribution of means on that item when it has been used in circumstances similar to those that you are evaluating. As well, we provide an indication of whether your mean is in the top 25% of means for each item ("HI"), the mid 50% band of means ("Med") or in the lower 25% band of means ("Lo").

If you have items for which you scored “Lo” you might consider contacting a TEDI consultant to discuss ways that you might address or interpret these results, and you are encouraged to contact Dr Calvin Smith about the Teaching Improvement Program (TIP) which may also be of benefit to you. Remember that RIGs is a norm referenced system and that a relatively low score (in the bottom 25% band) does not necessarily mean that you are performing poorly.

We have listed (below) the evaluations you have requested this time and detailed the manner in which they were classified for the purposes of providing the Ratings Interpretation Guides. If there are significant anomalies in the way your evaluation was classified please contact us.

N.B. The size of the class used for this classification purpose is the size of each of the groups you teach and to which you gave the evaluation instrument; this may be smaller than the total enrolment in the subject (it is the teaching context that counts here not the total enrolment in a subject).

In the calculation of Rating Interpretation Guides we do not use the means from evaluations with fewer than 10 respondents. Further, we do not report the 25th and 75th percentiles where there are fewer than 10 means in the dataset for that particular item in that teaching context. Where there is insufficient data, the RIGs fields on the report will be zero-filled ("0.00-0.00"). The RIGs values are calculated using TEVAL data from 1998 and 1999. RIGs for the overall ratings items are rescaled from the 7-point scales used in the previous TEVAL support system.

For further enquiries please contact Evaluations Administrator, ext. 53006 (evaluations@uq.edu.au).

We are pleased that you chose to participate and hope that the evaluation will be useful to you.

Your sincerely,

Evaluations Officer, TEDI.
