UNSW Moodle

Essential information concerning this course is accessible via

<http://moodle.telt.unsw.edu.au>

Official student email address

Official information from the university, including this school, is sent to each student's university email address:

zSTUDENTNO@unsw.edu.au

Check this email account regularly! Please use ONLY your university email when contacting academic staff.

Prerequisites

A **PASS** or better in MATH1141 or MATH1131 is the prerequisite for MATH1231. If you do not have this prerequisite then you should unenrol yourself from MATH1231 immediately and enrol in MATH1131.

In cases of difficulty you can see the Student Services Centre, RC-3090.

Classroom Tutorials

Classroom tutorials start in week 2 and run to week 13 --- check your timetable on myUNSW at the END of Week 1. It is important that you attend the CORRECT tutorial. Both your algebra and calculus tutorials will be in the first half of the week.

Online Tutorials

Each week you also have an online tutorial. Links for videos and Maple TA exercises for these will be posted on the Ed discussion forum.

Discussion Forum

The Ed discussion forum will be used and some important information will be there.

Class Tests

Algebra and calculus class tests will be conducted together in weeks 6 and 11. These will take place in the second half of these weeks.

Course Packs

All students are strongly advised to buy the Math1231/1241 Course Pack from the University Bookshop. The coursepack will also be available on Moodle.

Textbooks

Students might wish to delay buying the Calculus textbook for a week or so.
